

# “Anyone not changing to another postmix supplier like Fountain has rocks in their head!”

That's the opinion of Wayne Jowett, Manager of the Tokoroa Club.

The Tokoroa Club is a well established social venue, having operated in Tokoroa for over 67 years. It offers members, families and guests friendship and camaraderie in a secure environment with a great atmosphere. The Club has a number of adjuncts that members can join including indoor and outdoor bowls, snooker and 8 ball. For the more light hearted there is a gaming room and restaurant. Live bands perform at the Club every Friday evening from 8.30pm. Campervan facilities have recently been upgraded to allow for 6 powered and watered sites.

“We have been with Fountain Postmix for about 12 months using 3 post mix guns, 8 flavours at each. I think anyone not changing their postmix supply to Fountain has rocks in their head,” says Manager Wayne Jowett.

“The reason we changed to Fountain was primarily on price - almost half the price for the syrup by comparison - far better prices.”

“We really like their flexibility and friendliness. They are just so easy to deal with - place an order today for next day delivery, whereas the other supplier would only deliver orders about every 2 - 3 weeks. We place our orders online through the Fountain website, easy, convenient and an immediate acknowledgement. The Fountain service is spot on.”

When asked about taste Wayne commented, “Our members are more than happy with the taste and quality, most didn't even notice the change over.”
